All Stock Thoroughly Acclimated.
January 28th, 1915.

My sincere thanks to all those who in the past year have extended to me their valued patronage. May I again merit your confidence and support during the coming season and also win those to our list of patrons whom we have as yet not had the pleasure to wait upon. We are making a healthy growth each year and we cannot stop, stand still nor go back. We are going ahead and want you all to give us more of your business, so we can continue to go ahead. By so doing you are making me more useful to yourself all the time and I assure you, I appreciate very much any and all orders placed with me.

It is of mutual interest to place all orders for plants, trees or shrubbery early so that proper arrangements are made for planting in due time. The weather regulates our work very materially and is very trying to those not familiar in some seasons. We do all that is possible to be on time and if you will place your order before the planting season comes it will facilitate things very much because we prepare and give you just a little better service than when the order comes in during the height of the rush. Plan early your planting for the coming season and give us your order.

If you wish to ask any questions in regard to any plants, trees, their care, or anything pertaining to Horticulture, I will gladly answer same to the best of my knowledge.

Cash must accompany orders from unknown parties.

All orders will be carefully filled and you can feel assured you will get what you order.

Looking forward to a greater demand for our hardy phlox, trees and shrubbery than ever the coming season, I beg to remain

Most respectfully yours,

**ADOLF MÜLLER,**

Hardy Phlox

Among hardy perennial plants no class is of more importance than the Phloxes, succeeding in almost any soil and position, and flowering through along season and while they continue in good condition and flower freely for many years without attention, yet they respond quickly to and are improved by liberal cultivation. Time of blooming June, to frost.

Twelve Beautiful Hardy Phloxes of Recent Introduction.

The following varieties, all recent introductions, embrace not only new shades of color, but also form plants of strong, sturdy yet compact habit of growth which place them among the most desirable sorts, particularly for massing in large numbers.

Antoin Mercie. Light ground color, one-half of each petal suffused bluish-lilac.

B. Comte. Brilliant rich French-purple, very choice and rare.

Braga. Mauve-rose, more or less suffused with salmon; large white eye; a distinct and pleasing color combination.

Coquelicot. A fine pure scarlet, with crimson eye.

Egan. One of the finest Phloxes yet introduced, and while the individual flowers, according to color chart, are of a delicate lilac, illuminated by a large bright solferino eye, the color effect as a whole is a pleasing shade of soft pink, flowers 9 inches high by 7 across, and the individual flowers are the largest known to us, frequently measuring 1 3-4 inches in diameter.

Gefion. A new color in Phloxes, a tender peach-blossom pink with bright rose eye, flower and truss very large, on erect sturdy but compact stems.

Rosenberg. Bright reddish-violet, with blood red eye; individual flowers as large as a silver dollar.

Widar. Light, reddish violet, with a very large white centre, which intensifies and illuminates the color, best grower.

Europa. A white variety, with a decided crimson-carmine eye. The individual flowers and trusses are very large; entirely distinct; of remarkable sturdy, erect habit.

Frau Anton Buchner. The finest white yet introduced, having the largest truss and individual flower; dwarf habit.

Tragedie. Deep brilliant carmine with blood-red eye.

Wanadis. Entirely distinct, a mottling of white and light violet.

Price of these Twelve Strong Field grown plants 50c each; per doz. $5.00; $35.00 per 100. One year old plants, 30c each; $3.00 per doz.; $25.00 per 100.

Paeonias

Hardy flowers of many varieties we have on hand all the time and we are able to fill good size orders. In Phlox we make a specialty and raise them in large quantities, but like other herbaceous plants we do not try to list all the varieties, so please do not hesitate but send us your list of wants and we will quote you prices.

Paeonias are becoming ever more popular. Their period of blooming has been greatly increased with varieties that bloom early in May and are followed up by others that keep coming into bloom till the middle of June giving a wealth of flowers and in the most desirable color. In size they are vieing with the great Chrysanthemum, and as they are of easy culture every garden whether large or small can afford to give room to one or more of these stately Paeonias. Come to the Nursery in Peonia time and see them at their best when in bloom.

The following are the names of the kinds we have growing in our Nursery: Festiva Maxima, Sea Breeze [anemone type], Mutilalis, Dr. Britannicus, Delachii, Edulis Alba, Edulis Common, La Tulip, Marie Lemoine, Asa Gray, Francois Ortegal, Felix Grousse, Model de Perfection, Mons Jules Elie, Officinalis Rubra, Off. Rubra fl. Plena, Off. Flora Rosea Plena, Tenuifolia Rubra Androsea. These plants we can offer from 25c each up to $3.00 each. The greater the cost the bigger the plant. We can furnish plants that will positively bloom the first season. We have them in fine established clumps 5 year old and when you buy one of these you can look for immediate results.

Hardy Lilies, in all colors, 25c; $3.00 per doz.

Kelways Delphiniums Hybrids, one two and three year clumps, sure to bloom first season, 25c to $1.00.

Hardy Chrysanthemums, all colors, 25c each; $2.00 doz.

Hardy Garden Pinks, three colors, $2.00 doz.; $15 per 100.

Veronica Bleeding Heart Lily of the Valley Butterfly Bush, Hardy Sunflowers, Iris and a host of other kinds of hardy flowers at the lowest possible price. Come and see our plants, or write and let me give you prices on your wants.

Adolf Müller

Flowering Evergreens

All Azaleas are nicely set with buds and will bloom.

Azalea Mollis Mad de Warelles at $1.50
Azalea Mollis Chev. de Reali, at $1.50
Azalea Mollis Alphonse Lavalli, at $1.50
Azalea Ponticum Daviesii at $1.50
Azalea Ponticum Nancy Waterer at $1.50
Azalea Ponticum Jos Klinger at $1.50
Azalea Ponticum Gloria Mundi at $1.50
Azalea Mollis and Pontic. mixed, 75c; $6.00 dozen

Hardy Evergreen Azaleas are among the finest of ornamental shrubs that we know of and they lent themselves to a wonderful variety of special planting where the room is small and something of a better quality is required. They are represented in most colors, red, scarlet, brick red, lavendar, snowy white, cerese, pink, purple and mixed colors.

Azalea Ameona, $1.50, $2.50 and $3.50 each.
Azalea Hinodegerii, 75c, $1.50, $2.50 each.
Azalea Yahegerii, $1.50 and $2.50 each.
Azalea Letifolia, $1.50 and $2.50 each.

Hardy Rhododendrons, album, Roseum, elegans, Caractaeus, Everestianum, Kettle drum, $10.00, $15.00 and $18.00 per doz.
Daphne Zneorum and Daphne Mez. Rubrum, $1.25 each, $10.00 per doz.

A cluster of Yuccas are very effective on a bank where Shrubbery or trees are too high. They are very hardy and will grow on the driest kind of soil. Strong Clumps $1.50 each. Divided pieces 25c each.

It is most instructive to go to the nursery and see the trees and shrubs in bloom and get familiar. It is both a treat and a healthy undertaking, and I am sure we are glad to show our Nursery any time you come.

Japanese Maples with their brilliant foliage are a class of ornamentals all by themselves. They are very effective in groups of three or more en masse and dotted in among other bushes to add color. $1.50, $2.50 and $3.00 each. Transplanted stock sure to grow.

Evergreens

For Forestry Planting, the Norway Spruce, is more useful than any other kind of a tree. It is absolutely hardy, grows in most any soil and exposure and lends itself to all purposes either as a hedge, solitaire specimen, or more especially in a forest grove, in lots of one acre, ten or twenty acres or more. It grows into a woods in a very few years with its rich dark foliage together with the native odor similar to that of the Balsam Fir. These trees become a source of immeasurable pleasure and gratification, as they add very early in their growth to the general appearance of the landscape about them. They can be planted close together and thinned out as they grow up or one can plant them in their permanent places right away or about 100 trees to the acre. At any rate if there is room for but ten or twenty trees these should be planted; you will thus create a thing of lasting beauty at a small cost. We will be glad to show 40,000 growing in our nursery where you can see how pretty they really look.

Prices of these trees are as follows:

Norway Spruce transplanted, bushy, well cared for, stock clean and healthy down to the roots.

Norristown, Pa.
"A Certificate" of Nursery Inspection has been granted by the Department of Agriculture of the State of Pennsylvania showing that our trees, shrubs and plants have been found free of all dangerous insects, scales and other pests attacking plant life, signed by Prof. Enos B. Engle, State Nursery Inspector. I heartily cooperate in this work of supervision and try to keep on the lookout for any such insects all the year round so as to positively keep clean and be able to give to my patrons stock that is conspicuous for its purity as well as sturdiness of growth.

The Home grounds should be carefully planned before planting. The manner and appearance of it spells to a large extent, the personality of the owner. Some of the home grounds are almost irritating to the refined taste and conceptions of intelligent people who appreciate the creations of the true landscapes whether on a large or small scale. There always must be a respect for dignity and harmony in grouping shrubs and trees and so place them that they harmonize with the style of architecture of the home.

If ready to undertake any planting, write and ask for advice. At a small cost I will make a planting plan, showing how to lay out your home grounds and what to plant. At a moderate cost, I will come by appointment and give you part of a day or a whole day on your premises, giving advise or superintend the laying out of your property. At any rate I shall be pleased to receive your communications in regards to the planning of your grounds whether garden, lawn, care of trees, or the planting of a successful rosebed.

Yours for good service,
